Helpful Shopping information for pants & additional polo colors

These details are meant to provide families with a look at stores with uniform pants that have various price ranges, comfort styles, etc. You are **NOT** required to shop at any of these places. It is meant to be a helpful guide.

There are several different fabric/material options available now that are comfortable, stretchy, pull on style (fake buttons), etc. but still fall within the uniform guidelines.

I did not price sweaters, shorts, jumpers, etc. but they are also widely available in different styles, price ranges, etc.
